

Star FLUID[®]

Innovative adjustable sliding system for wardrobes with overlapping external doors
Innovativi scorrevoli regolabili per armadi con ante esterne sovrapposte

EXTERNAL OVERLAPPING DOORS
ANTE SOVRAPPOSTE ESTERNE

Star FLUID[®]

PATENTED

Star Fluid is the **new sliding system for wardrobes with external overlapping doors**, equipped with **latest-generation soft damper stoppers that use Fluid technology**.

The new system is suitable for wardrobes with **two or three doors**, ranging in **thickness between 22 and 50 mm**, and a **maximum weight of 80 kg**.

Star Fluid è il nuovo sistema di **scorrevoli per armadi con ante esterne sovrapposte**, dotato di **fermi ammortizzati di ultima generazione con tecnologia Fluid**.

Il nuovo sistema è adatto per armadi con **due o tre ante**, con **spessori da 22 a 50 mm**, e con portata fino a **max. 80 kg**.

**The new Star Fluid sliding system:
the highest expression of technological
innovation and aesthetic result.**

**Il nuovo sistema di scorrevoli Star Fluid: la massima
espressione di innovazione tecnologica e risultato
estetico.**

In technical terms, the new **Star Fluid** system introduces some special elements: the **sliders are considerably easier to adjust**, while the **soft damper stoppers use the new Fluid technology**, resulting in extremely smooth opening and closing movements.

Aesthetically, the **Star Fluid** system has a **new front cover** that is able to hide Fluid dampers, thanks to an **aluminium band**, which **can be coloured or painted as desired**.

Il nuovo sistema **Star Fluid** introduce, dal punto di vista **tecnico**, diverse peculiarità: la **regolazione degli scorrevoli** risulta notevolmente **migliorata**; i **fermi ammortizzati** presentano la **nuova tecnologia Fluid**, per ottenere dei movimenti estremamente morbidi in apertura e chiusura.

Dal punto di vista **estetico**, il sistema **Star Fluid** presenta una **nuova copertura frontale**, in grado di nascondere i fermi ammortizzati, grazie ad una **fascia di alluminio** che può essere **colorata o verniciata a piacimento**.

New patented fixing system: quick and easy

The **Fluid dampers** are **fixed through a new manual patented system** that relies on rapid hooking. No tools are needed to move the dampers to the desired position and then block them there, which means fixing is very quick. In turn, this shortens assembly times considerably.

Nuovo sistema di fissaggio brevettato: facile e veloce

Il **fissaggio** del **fermo ammortizzato Fluid** avviene grazie ad un **nuovo sistema brevettato manuale ad aggancio rapido**. È possibile effettuare la regolazione dei fermi molto semplicemente, risparmiando tempo e senza la necessità di utilizzare attrezzi.

The **Star Fluid** sliding system introduces new elements: **an innovative ball bearing** into the wheel and a new-generation coating. This results in **smoother and less noisy sliding**, especially when movement starts and stops.

Gli scorrevoli del sistema **Star Fluid** introducono una grande novità: negli scorrevoli è stato inserito un **cuscinetto innovativo** all'interno della ruota e un rivestimento di nuova generazione, che determinano così una **maggiore scorrevolezza** ed una **minore rumorosità**, soprattutto nelle fasi di stallo e di ripartenza.

Star Fluid

New adjustable sliding system for wardrobes with overlapping external doors
Innovativi scorrevoli regolabili per armadi con ante esterne sovrapposte

Another new feature of the **Star Fluid** system relates to the **tracks**, which for the first time are **multipurpose**. **The same track can be used with all fixing methods.**

Un'altra novità del sistema **Star Fluid** riguarda i **binari**, che per la prima volta sono **polivalenti**: **con lo stesso binario**, infatti, si posso avere **tutte le tipologie di fissaggio**.

Practical and elegant.

The **Star Fluid** sliding system fits into a **new aluminium frame**, a product with an innovative design that delivers a narrow frame effect with **a great aesthetic impact**.

Praticità ed eleganza.

Il sistema **Star Fluid** si integra con un **nuovo telaio di alluminio**, un prodotto di design innovativo, che permette di avere un effetto cornice sottile, ma **esteticamente di grande impatto**.
